Cedarburg PAC, Inc.'s 10-Year Anniversary Season

Idea #1:

Students Reap Greatest Rewards of Cedarburg PAC, Inc.'s Visiting Artists Series

Imagine working as a member of CMA award-winning artist Brad Paisley's technical crew. That's what Cedarburg local Vic Wagner can claim. He recently toured with Brad Paisley in that capacity. And, his experience with Cedarburg PAC, Inc.'s Visiting Artists Series may just have provided the foundation he needed to land this position!

As a former Cedarburg High School student involved with the Cedarburg PAC's technical crew, Wagner worked with CPAC's Technical Director Paul Thur to learn the "ins and outs" of the trade. The quality and depth of this education served this student well.

But this isn't the only CHS student with a success story to tell. Cedarburg PAC, Inc. can put reporters and editors in touch with past and current students who are benefiting from their experience with the Visiting Artists Series.

Idea #2:

Local Designer Creates New 10-Year Anniversary Image for Cedarburg PAC, Inc.

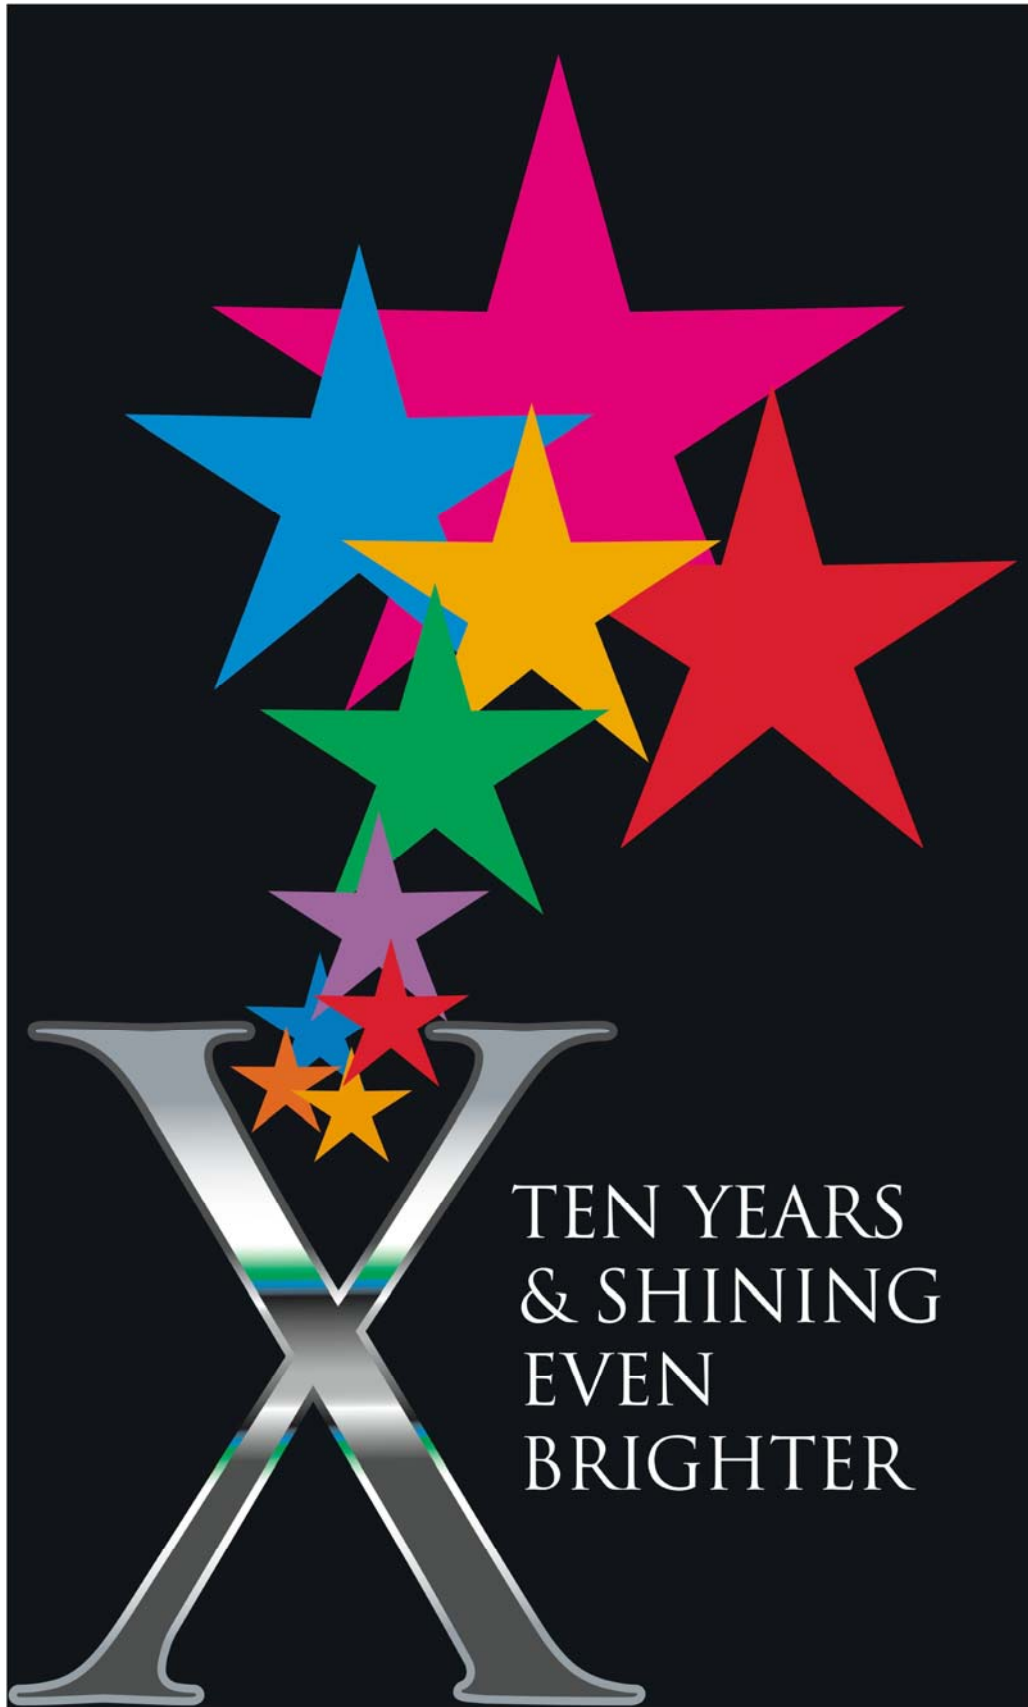

Once again, local designer Vic DiCristo has helped an organization in his beloved Cedarburg to shine. Over the years, DiCristo has been the driving force in masterminding logos and creative applications for many organizations – including the Cedarburg PAC.

Years ago, DiCristo worked with PR professional Marilyn Vollrath to direct Cedarburg High School students in creating a logo for the venue. Now, DiCristo, a designer for WPT, has offered his pro bono services in refreshing that student-created logo – and developing a 10-Year Anniversary image and artwork for the Cedarburg PAC, Inc.

With DiCristo's help, the Cedarburg PAC, Inc. will be conveying an exciting, new image to the public starting this fall. Cedarburg PAC, Inc. can put reporters and editors in touch with DiCristo who can discuss the thought process involved in developing this creative.
